

ALBERT CHAN

Support Operations Leader | Vendor & Partner Management | Automation at Scale

San Francisco, CA | +1 925-785-9571 | albertchan@alumni.harvard.edu | linkedin.com/in/albe88

PROFILE

Support operations leader with 22+ years running vendor-partner programs, service operations, and automation programs end to end. At Meta, managed 5 BPO vendor relationships end to end with shared targets, monthly and quarterly review cadence, and corrective action on gaps, led the program managers accountable for vendor partner delivery, and ran weekly, monthly, and quarterly business reviews with scorecards and dashboards. Designed and ran an AI deployment program measured against a pre-launch baseline, delivering a 20% lift in advertiser performance. Packaged what worked into pipeline and account-management workflows that all 5 vendor partners ran as standard plays. Builds LLM and agent workflows on Claude and OpenAI APIs daily at Rowland AI, leading a delivery team shipping at operational scale and running biweekly Claude trainings that turn new workflows into team practices. Deep operational data fluency from Google across enterprise and SMB at \$800M portfolio scale.

CORE STRENGTHS

Vendor and partner management, multi-site and offshore | Service governance: quality, productivity, cost to serve | Automation programs and AI-enabled frontline workflows | Operational KPIs: defining metrics and review cadences | QBRs, performance recovery, and accountability | Coaching senior contributors and developing talent | Organizational design in high-growth environments | Cross-functional leadership with Product and Engineering

EXPERIENCE

ROWLAND AI | President and Chief AI Officer, San Francisco, CA | 2026-Present

Build LLM and agent workflows on Claude and OpenAI APIs daily at operational scale; lead the delivery team and run biweekly Claude trainings that turn new workflows into team practices.

- Build LLM and agent workflows on Claude and OpenAI APIs, including evaluations, tool integrations, and guardrails across 20+ use cases, using Claude daily at operational scale.
- Host biweekly Claude trainings for Rowland and the sister company, Paramount.
- Lead the Rowland AI delivery team, overseeing engineers and product specialists building LLM and agent workflows at operational scale.
- Set the baseline and success measures before each deployment, then reported against them: 75% gain in division order processing efficiency, 3.5X document throughput, and processing time cut from 30 minutes to 7 minutes.
- Codified discovery, business case, pricing, and deployment into a repeatable process across Chevron, MineralWare, Iron Mountain, SM Energy, Raisa, and Teocalli.

META | North America Sales Director, Small Business Group, Seattle, WA | 2022-2026

Ran North America SMB as a program leadership function, managing 5 onshore and offshore BPO vendor partners with 400+ vendor-employed reps through named program owners, weekly, monthly, and quarterly review cadences, and scorecards and dashboards.

- Led 5 direct reports who managed 400+ BPO sales reps across 5 vendor partners.
- Managed the 5 BPO vendor relationships end to end, setting shared targets and performance standards, running the monthly and quarterly review cadence, and driving corrective action on gaps.
- Ran weekly, monthly, and quarterly business reviews and designed scorecards and dashboards for vendor partner performance, now using AI to assist their design and analysis.
- Packaged what worked into pipeline and account-management workflows that all 5 vendor partners ran as standard plays across a distributed field.
- Designed and ran a sales enablement and AI deployment program across incubator teams, measured against a pre-launch baseline, delivering a 20% lift in advertiser performance and a 15% reduction in onboarding time.
- Led the program managers responsible for vendor partner delivery, giving every program a named owner, a milestone plan, a measurement approach, and a documented escalation path.

TICKR | Chief Revenue Officer, San Francisco, CA | 2021-2022

Built the commercial operating system of a venture-backed enterprise AI company from nothing, installing the sales process, CRM discipline, forecasting cadence, and reporting that leadership and the board ran the business on.

- Installed the sales process, CRM discipline, forecasting cadence, and reporting that leadership and the board ran the business on.
- Scaled revenue teams from 5 to 50 across sales, business development, account management, customer success, alliances, and marketing.
- Grew ARR from \$4M to \$11M in under 12 months by repositioning the offer and targeting a defined ideal customer profile.

GOOGLE | Country Head, Japan & Korea, Product Strategy and Activation, San Francisco, CA | 2020-2021

Ran product strategy and activation programs across markets representing \$6B+ in combined annual revenue, translating global priorities into regional programs with named owners, milestones, and reporting.

- Translated global product priorities into regional programs with named owners, milestones, and reporting that local teams ran.

EXPERIENCE (CONTINUED)

GOOGLE | Head of Industry, North America eCommerce & Retail, San Francisco, CA | 2014-2020

Led enterprise and SMB sales strategy and operations across an \$800M eCommerce and retail portfolio, running frontline teams through sales operations, territory planning, and quota optimization.

- Led 2 CPG SMB teams serving 120 clients, contributing 55% of vertical growth through sales operations, territory planning, quota optimization, and go-to-market execution.
- Led SMB teams serving 500 advertisers, growing at 30% year over year.
- Managed over 300 SMB accounts personally.

PROCTER & GAMBLE | Director, Customer Business Development, Cincinnati, OH | 2004-2014

Led national sales programs and joint business planning across P&G's largest retail partners, with full commercial ownership of a \$265M book and a \$75M P&L.

- Initiated Olay Skin Care's first North America direct-to-consumer strategy and developed custom programs with Amazon, Walmart, Target, Costco, and Walgreens.
- Delivered the fastest North America revenue growth in Beauty Care while managing \$265M in revenue and a \$75M P&L.

SALES LEADERSHIP HIGHLIGHTS

- Managed 5 onshore and offshore BPO vendor relationships end to end at Meta, with shared targets and performance standards, monthly and quarterly review cadence, and corrective action on gaps, serving 100K advertisers against a \$30B North America book.
- Ran weekly, monthly, and quarterly business reviews and designed scorecards and dashboards for vendor partner performance, now using AI to assist their design and analysis.
- Packaged what worked into pipeline and account-management workflows that all 5 vendor partners ran as standard plays across a distributed field, replacing one-off fixes with reusable systems.
- Designed and ran an AI deployment program across incubator teams measured against a pre-launch baseline, delivering a 20% lift in advertiser performance; at Rowland builds LLM and agent workflows on Claude and OpenAI APIs daily and leads a delivery team shipping at operational scale.
- Coached senior individual contributors as a second-line leader at Meta, with 5 directs managing 400+ BPO reps across 5 vendors, and scaled Tickr revenue teams from 5 to 50.
